

REAL-TIME PRESCRIPTION BENEFIT

Your patients may save more than you realize

- + Time
- + Money
- + Hassle
- + Days on therapy
- + Surprises at the pharmacy

When you can reference your patients' specific information to guide them to the right therapy, right at the point of care, it can be more valuable than you might expect. Real-Time Prescription Benefit (RTPB) provides insight into patient cost and coverage details, directly within your Electronic Health Record (EHR). Now you'll have all the information you need to save your patients from paying more than what's necessary.

Save yourself a search

Save you and your office staff valuable time with RTPB by accessing the following information through your EHR:

- + Patients' out-of-pocket costs
- + Therapeutic options
- + Coverage alerts
- + Pharmacy choices

\$250M

in member savings¹

See all the money you save for patients

Instantly access out-of-pocket costs, therapeutic options and pharmacy choices to help determine which therapy is right for your patient. Your patient will potentially save money when less expensive covered options are filled the first time. You also protect them from the hassle of finding out their prescription isn't covered at the pharmacy – saving them from paying 100% out of pocket for their medication, or potentially abandoning the prescription altogether.

CASE STUDY

See how one physician helped their patient save with RTPB

By utilizing RTPB at the point of care, one physician saved their patient from paying high out-of-pocket costs for their diabetes medication.

A doctor examined a patient being treated for diabetes

A specific, brand-name diabetes drug was requested

While considering options for therapy and the patient's out-of-pocket costs, the doctor utilized RTPB directly in the exam room

RTPB immediately alerted the doctor that the requested drug would result in high out-of-pocket costs for the patient

The doctor discussed options with the patient and prescribed an alternative with a significantly lower out-of-pocket cost

This insight saved the patient **\$280 per fill** on their medication

“RTPB enables informed decisions.
Patients appreciate knowing what their options are.”

- Family Practice Physician since 1991

Express Scripts can help you start using RTPB directly within your EHR.
