Real support for real life

Wellness seminars and management trainings are more than an important part of your Employee Assistance Program (EAP) benefit. They're an opportunity to elevate the well-being of your workforce.

Your EAP offers access to a broad range of seminars to help employees and managers reduce stress, stay healthy and perform at their best—which helps your organization perform at its best, too.

The EAP wellness seminar and management training catalog has over 175 topics to help your workforce grow stronger and more resilient. These seminars have been researched and developed by subject-matter experts. Our seminar presenters are licensed clinicians and/or professional speakers with extensive experience in the field of employee assistance and counseling.

Wellness seminars are generally an hour in length and management seminars are one to two hours. Most presentations include a combination of lecture, discussion, experiential exercises and handouts.

Your Employer Service Coordinator team can help you explore all of the offerings to find the right fit. They can identify an individual seminar or suggest topics to create a multi-seminar series.

Planning a seminar

How do I make a request?

To request a seminar for your employees, please contact your **Employer Service Coordinator team at 888.736.1377** or eshcomments@evernorth.com.

What is the cost?

Your company has purchased a bank of Employer Service Hours (ESH) that may be used for on-site services, including wellness seminars. The number of ESH deducted is dependent on the length and type of the seminar selected. Please refer to your organization's policy governing the use of ESH, or contact your Employer Service Coordinator team for more information.

Can I host a webinar or virtual seminar?

Seminar topics are available to be presented in a webinar format. These are scheduled in the same manner as an in-person training. Your organization is responsible for all technology to support webinar delivery.

EAP seminar materials are copyrighted and cannot be recorded, modified or reproduced.

What if I need to change or cancel a scheduled seminar?

If there is a need to cancel, change or reschedule a seminar, please call the **Employer Service Coordinator team at 888.736.1377** at least five business days in advance of the seminar date.

Please note that Employer Service Hours will be deducted from your account for cancellations/changes with less than five full business days' notice.

Please give us at least **4 weeks notice** to allow enough time to organize an effective seminar for your organization.

In the modern workplace, there are many things that can make leading a challenge: changing work processes, team dynamics, market fluctuations and more. In this workshop, we explore complexity in the workplace—what it is and why it can be challenging to manage. Join us as we explore and practice ways to think through complex situations. Learn how you can innovate, make decisions and foster team creativity, even when the outcome is unclear.

Workshops

For employees

Diversity: Let's Talk About It

Sometimes discussing diversity-related issues can be hard. We may be unsure of ourselves, feel defensive or frustrated, and opt out instead of engaging. This can be a missed opportunity to expand our perspective and bridge gaps. In this workshop, we'll discuss the challenges, such as the built-in biases we all share. We'll explore how to disrupt these default barriers with awareness-building exercises and the development of inclusive interpersonal skills. Join us to lean into this conversation and be part of creating an environment where each of us can feel valued and respected.

EQ and You: Connect for Success

Being mindful of our emotions and how they impact those around us, otherwise known as emotional intelligence (EQ), is an important and often overlooked tool on the path to success. In this workshop, attendees will explore how to become more aware of emotions and their impact on work. We'll practice managing emotions thoughtfully, and apply these skills to managing relationships and conflict with others.

Workplace Conflict: Strategies and Solutions

Work is challenging enough without the tension of a conflict. Our instinct is often to make conflict go away to make us feel better, but that can often leave all parties unsatisfied. In this workshop, we'll explore conflict triggers in the workplace. We'll practice skills to better manage difficult relationships, and get pointers on how to discuss things openly without anger or hurt feelings. Join us as we explore how to prevent small conflicts from turning into big ones.
